

MAPPING OUR FUTURE

Course No. 2009-13.....9 Hrs.

Overview

This course is designed for those that have experience in curriculum mapping and an understanding of terminology and the mapping process. Mapping our Future is a hands-on workshop where you are actively mapping your curriculum using the Atlas Rubicon software. We will be working closely with Lynne Wells, our curriculum mapping consultant, who will assist us in moving our core group of mappers forward in their endeavor. We will take some time to unpack the N.Y.S. Standards and discuss consensus maps as teams of content area teachers.

Recommended: All middle school and high school teachers who have begun a curriculum map

Presenters

Kerri Messler, KMS, and Jim Wager, LHS, are Instructional Coordinators who support the curriculum mapping process.

Guest Speaker: Lynne Wells

Date: Tuesday, December 1, 2009.....2:45 – 5:45 p.m.
Tuesday, December 8, 2009.....2:45 – 5:45 p.m.
Tuesday, December 15, 2009...2:45 – 5:45 p.m.

Location

KMS/LHS LMC
