

# THE DOS OF

# REMOTE LEARNING

## **Treat Remote Learning The Same As Classroom Learning**

- It's important to remember that the same rules for behavior apply as being in the classroom. Focus on learning.

## **Be Aware Of The Schedule And Format**

- Teachers will follow a format for their lessons each day which consists of whole group mini-lesson, independent and/or small group work, and whole group share.

## **Have A Routine And Stick To A Schedule!**

- Use the schedule that the teacher or the school has provided to stay on top of your daily learning.

## **Choose A Good Place To Learn**

- Choose a place to learn that is dedicated to remote learning. It should be quiet and free from distraction. Ask family members to disconnect other devices using WiFi temporarily so you have enough bandwidth.

## **Try Your Best To Work Independently**

- Only ask a family member for help if you need it, use the chat to ask your teacher for help!

## **Use Classroom Language**

- Be respectful and polite to staff members and students. Do not post negative comments or spam the chat.

## **Take A Screen Break**

- Take a break outside and get fresh air!

## **Be Patient And Kind And To Yourself And Staff**

- It's a new experience and may be overwhelming at first for everyone.
