- IV. Executive Session:** A motion is needed to enter into Executive Session for the purpose of the medical, financial, credit, or employment, promotion, demotion, discipline, suspension, dismissal, or removal of a particular person or corporation.

5606 - Voter Registration for Students

The Board of Education believes that getting young people involved in the election process helps to secure the future of democracy by preparing young people to be educated, engaged voters who have formed the habit of voting and contributing to civic life early.

In an effort to promote student voter registration, the Board directs the building principals to offer all students who are at least 16 years old (but will not be 18 years old by the next election) the opportunity to register. These students must be otherwise qualified to register to vote. These pre-registrations will be automatically registered upon reaching the age of eligibility following verification of the person's qualifications and address.

Students who do not wish to pre-register to vote do not have to do so. There will be no penalty (including participation grades or credits) for choosing not to do so.

Ref: Election Law § 5-507

First Reading: November 23, 2020

Second Reading: December 21, 2020

Adoption date:

0000 - EDUCATIONAL PHILOSOPHY

The Board of Education is committed to educational excellence and pride in achievement. The district seeks to reach these goals by providing students with learning opportunities, guidance and direction so that they, with the assistance of their families, may make informed decisions about their futures and become contributing, responsible members of our society.

The district respects the value and dignity of each individual. By providing a comprehensive curriculum that reflects the value and dignity of each child, as well as concern and support, all students will be encouraged, motivated, and challenged to excel academically and socially.

The educational program will strive to provide each child with the fundamental academic skills and basic knowledge required for his/her maximum educational development, the opportunity for each child to develop his/her interests and abilities to the fullest extent according to his/her individual potential and special services to promote the physical, mental and emotional development of each child. It is the district's goal to foster in students good work habits, integrity, self-discipline, good sportsmanship, self-confidence and a sense of purpose. Extracurricular activities will be offered when possible to enhance the academic program.

The Board encourages parents and teachers to offer their expertise in helping to develop a school environment that is academically challenging, psychologically satisfying and socially fulfilling for students at all levels. The objectives of an educational program are best realized when mutual understanding, cooperation, and effective communications exist among the home, community and school.
